Dear Cellular One Customer:

Dobson Cellular Systems, Inc., the premier provider of wireless technology to rural America, has recently acquired Michigan wireless business formerly owned by RFB Cellular, Inc. Dobson currently operates under the name Cellular One in more than 60 markets in 16 states, including Michigan. While the Cellular One name on the store will stay the same, you can look forward to a number of exciting changes that will improve the way you communicate. Our team of professionals is already working to ensure a smooth transition to next generation GSM technology.

Coming soon, you will see plans that offer you a larger Michigan home coverage area, a network with improved call clarity and a dynamic new array of handsets, products and services. With the introduction of GSM, you will have the ability to receive:

- caller identification,
- voice mail notification,
- text messaging,
- access to the wireless Internet,
- the ability take and send pictures,
- downloaded ring tones and
- videos.

We are proud to be your new wireless provider. We look forward to providing you with state of the art services and network excellence. If you have any questions regarding this transition, feel free to visit your local Cellular One retail location or call 1-800-968-3199.

Sincerely,

Dobson Cellular Systems, Inc.

Required Change in Service
Please Review the Important Information Below

Dear John Doe:

Your current CDMA wireless phone will not transmit the location information necessary to comply with the current Federal Communications Commission (FCC) obligations for E-911 Phase II requirements. These requirements will allow emergency personnel to determine your general location when you place a wireless 911 call. To comply with applicable FCC requirements, it is necessary for us to exchange your current phone for an E-911 capable GSM phone by June 18, 2006. After June 18, 2006 your current CDMA service with your existing phone may be interrupted if not switched over to a 911 capable GSM phone. If you should choose to let your service expire you will not incur any termination penalties.

We recognize the inconvenience of this phone exchange, so in order to make this as easy as possible we're offering the Nokia 6010 or LG 1500 at no charge, with no need to renew your agreement. Or, you can choose a Motorola Razr for \$49.99 after \$50 mail in rebate with a new one-year agreement. We also have great deals on many other available phones. This change does require a GSM calling plan, and as a special offer we're including double the minutes for life on select GSM calling plans starting as low as \$20 per month. With this offer we are confident that you will get an exceptional value that provides twice the minutes of our current competitive offers.

In order to make this easier, you can choose to either visit one of our conveniently located retail stores, or call 1-800-759-0562. Our representatives will be happy to review all of your phone and calling plan options. Please see the next page for some of our most popular calling plans as well as a list of store locations.

Thanks again for choosing Cellular One as your wireless provider and we look forward to assisting you with this change.

Sincerely

Cellular One

Required Change in Service
Please Review the Important Information Below

Dear John Doe:

As of May 30, 2006 our records indicate that you have not yet exchanged your current wireless phone, which uses "CDMA" technology, for a phone compatible with our "GSM" technology and our Enhanced 911 (E-911) system. As communicated in a previous letter, you will need to exchange your current CDMA handset for a compatible GSM handset by June 18, 2006 in order to avoid the possibility of an interruption of your service after that date. Please review the following information for further details on this necessary change.

E-911 service will enable emergency personnel to determine your general location when you place a wireless 911 call. However your current CDMA wireless phone is not compatible with our GSM network and will not transmit the location information in accordance with the current Federal Communications Commission (FCC) obligations for E-911. After June 18, 2006 your current CDMA service with your existing phone may be interrupted if you have not switched over to a 911 capable GSM phone.

We recognize the inconvenience of this phone exchange, so in order to make this as easy as possible we're offering the Nokia 6010 or LG 1500 at no charge, with no need to renew your agreement. Or, you can choose a Motorola Razr for \$49.99 after \$50 mail in rebate with a new one-year agreement. We also have great deals on many other available phones.
